The Cementine Retro Series is a rectified porcelain series inspired by the fabrics of the 60's, 70's, and 80's. It is available in three, unique designs that provide a strong visual impact. Using flat background colors to create simple, essential forms, allows for great variety in how they can be used. Whether using them as individual accents, creating a group of one design, or mixing multiple designs together, they can be used to create a unique layout. When blending the various designs together, shade, texture and calibration differences should be expected.
