Glazed Porcelain Tile

Moon

Oh!Take. Master of Brazilian architecture, Ruy Ohtake always took us to surprising experiences. Going beyond limits, a constant in his creative process, Ruy challenged the possibilities of material and brought out what was unusual. The concrete and the color. Boldness and genius. When it all was said and done, the simplicity and elegance of the work envelops and enchants us. Here, the work is on the surface. Colors that are timeless and smooth, however remarkable for the strength of their scale, reveal a new path to the design. The master presents us with alternatives to what is obvious, what is gray, and what is uncommon.
