Night 2 x 2 Mosaic

Blend Straight Stack

## MADE IN ITALY

### PRODUCT TYPE

Rectified Glazed Porcelain  
Digital Print Technology

### STOCKED COLORS

DigitalArt Bianco  
DigitalArt Denim  
DigitalArt Ecru  
DigitalArt Grey  
DigitalArt Night  
DigitalArt Mix Deco

### STOCKED SIZES

12 x 24  
24 x 24 Mix Deco  
2 x 2 Mosaic Mesh  
Blend Straight Stack

### STOCKED TRIM

3 x 12 SBN

### RECOMMENDED USES

Commercial  
Residential  
Interior Floor  
Interior Wall  
Exterior Cladding  
Fireplaces  
Shower Walls  
\*\*Shower Floors  
Steam Showers  
Pool & Spa  
\*\*2 x 2 Mosaic & Blend Straight Stack only

### SPECIAL ORDER

Special Order Sizes and Finishes Available:  
Please contact your Sales Representative for more details.

**DYNAMIC C.O.F. WET:**  $\geq 0.42$

**P.E.I. RATING:** 4

**FROSTPROOF:** Yes

The DigitalArt Series is a rectified glazed porcelain that gives the appearance of a fabric and has a rich texture. Because this material is a porcelain product, minimal maintenance is required.

Piece to piece variation in shade or color are inherent in all fire clay products; therefore it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. When mixing sizes within a series, shade, texture and calibration differences should be expected. This series is suitable for residential and commercial applications.

For proper bonding, LFT/LHT mortar for large format and heavy tiles should be used when installing tiles with a dimensional length greater than 15 inches, and rectangular shape and plank tile, per industry standards. Proper thinset coverage is also necessary, and in some cases, back buttering of tile may be required.

When installing rectangular or square tiles 15 inches or longer with a staggered joint, it is recommended that the offset should not exceed 33%, unless otherwise specified by the manufacturer.

**PRODUCT CONTAINS  
≥20% POST-CONSUMER  
RECYCLED CONTENT**

For packaging information, please contact your local Arizona Tile.

*DCOF rating is a measurement of a tile's frictional resistance. It is the specifier's responsibility to ensure the chosen tile is appropriate for each interior and exterior application.*
