ORGANIC CLAY.

Glazed Ceramic Tile

Being made by hand is the essence of this collection, which reproduces the originality of handmade ceramics. The nuances emerge along the way when the burning of the clay transforms the organic matter into a phenomenon of surprising tones. The transformation of the five elements creates color compositions that bring nature closer. Neutral light tones give delicacy and refinement to the environment. The most intense colors give elegance and grandeur. The textures and visual tones create a richly detailed collection.
