ZIGZAG NOIR/BLANC HONED MESH

Black Honed/Calacatta Gris Honed

ZigZag is one of our newest Stone Mesh Patterns. The pattern is a combination of straight and angled pieces which gives it an illusion of movement like a cascading waterfall.

A mesh backing is adhered to the back of each sheet. There will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase.

Piece to piece variation in shade or color are inherent in all-natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As natural stone products, it is recommended that these be sealed to extend their longevity. When installing white marble, you must use a white thinset; using grey thinset will leave trowel lines and could stain the marble. It is recommended to use a grout color that coordinates with the lightest color stone.

ZigZag Blanc/Luna Honed Mesh

4 Sheet sample

The ZigZag sheet placement is as shown above. Sheet #1 will connect squarely with Sheet #2 below it. The vertical pieces in the lower left corner of Sheet #1 will align with the diagonal pieces in the upper left corner of Sheet #2 thus giving the pattern of the ZigZag design that flows from top to bottom (if installed on a wall, as shown). In this orientation the design between Sheet #1 and Sheet #3 will not have pieces that connect.
