

METROPOLIS PORCELAIN TILE COLLECTION

In the field, applying stain to concrete can take a team of laborers hours of prepping, installation and curing time. The Metropolis series presents the modern look of stained concrete in effortless porcelain. The three-shade collection comes in 18x18- and 12x24-inch sizes, along with a 3x12-inch bullnose. The non-rectified edges add a touch of uniqueness to the installations.
